## **USER'S MANUAL**

### **MODEL: G8000**

Please read this manual carefully  
before operating your set.  
Retain it for future reference.

G8000 Phone

## For Your Safety

All radio transmitters carry risks of interference with electronics in close proximity.

Mobile Phones must be switched off at all times in an aircraft.

Avoid pointing active infrared port at eyes.

Do not use your phone near petrol stations, fuel depots, chemical plants or blasting operations.

Switch off the phone in any area where required by special regulations. For example, do not use your phone in hospitals as it may affect sensitive medical equipment.

Minor interference may affect TVs, radios, PCs, etc.

Do not hold the phone in your hand while driving.

Do not dismantle the phone or battery.

Keep the phone in a safe place out of children's reach. It includes small parts which if detached may cause a choking hazard.

Do not touch the charger or phone with wet hands.

For your safety, use **ONLY** specified **ORIGINAL** batteries and chargers.

### **Please note:**

Batteries should be disposed of in accordance with relevant legislation.

Only use **ORIGINAL** accessories to avoid damage to your phone.

Emergency call may not be available under all cellular networks. Therefore, you should never depend solely on the phone for emergency calls.

### **Important Information**

This user's guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user's guide could void your warranty for this equipment.

### Radio wave exposure and Specific Absorption Rate (SAR) information

This mobile phone model has been designed to comply with applicable safety requirement for exposure to radio waves. These requirements are based on scientific guidelines that include safety margins designed to assure this safety of all persons, regardless of age and health.

- The radio wave exposure guidelines employ a unit of measurement known as the Specific Absorption Rate, or SAR. Tests for SAR are conducted using standardized methods with the phone transmitting at its highest certified power level in all used frequency bands.
- While there may be differences between the SAR levels of various phone models, they are all designed to meet the relevant guidelines for exposure to radio waves.
- SAR data information for residents in countries/regions that have adopted the SAR limit recommended by the international Commission on Non-Ionizing Radiation Protection (ICNIRP), which is 2W/kg averaged over ten (10) gram of tissue (for example European Union, Japan, Brazil and New Zealand):
- The highest SAR value for this model phone for use at the ear is 0.802 W/kg (10g).
- SAR data information for residents in countries/regions that have adopted the SAR limit recommended by the Institute of Electrical and Electronics Engineers (IEEE), which is 1.5 W/kg averaged over one (1) gram of tissue (for example USA, Canada, Australia and Taiwan).

## Accessories

Before Use

Please check to make sure that you have all the parts shown below.

**Handset**

**Travel Adapter**

**Portable Handsfree**

**Neckstrap**

**User's Manual**

**Battery**

**Data Cable/CD**

### **CAUTION**

- Always use genuine LG accessories. Failure to this may invalidate your warranty.

### **Note**

- Accessories may vary in different regions; please check with our regional service company or agent for further enquiries.

## How to insert the SIM Card

Before Use

1. Switch off the phone. Push up the button or the back of the phone and pull the battery away from the phone.

2. Insert the SIM card into holder. Make sure that the SIM card is inserted properly and that the gold contact area on the card is facing downwards.  
To remove the SIM card, push down the side of the SIM holder pushing the SIM card as shown.

### Note

- Removing the battery from the phone whilst it is switched on may cause it to malfunction.

## How to install Battery

Before Use

1. Position the lugs on the bottom of the battery into the retaining holder. Then, push the top half of the battery into position.

2. Slide the battery cover into position.

## How to charge the Battery

Before Use

To connect the travel adapter to the phone, you must have installed the battery.

1. With the arrow facing you as shown in the diagram gently push the plug on the battery adapter into the socket on the bottom of the phone until it clicks into place.

2. Connect the other end of the travel adapter to the main socket.  
Use only the included packing charger.

### **Warning**

- Do not force the connector as this may damage the phone and/or the travel adapter.

## How to disconnect the charger

Before Use

Disconnect the travel adapter from the phone by pressing its side buttons as shown in the diagram.

### ! Notice

- Ensure the battery is fully charged before first using the phone.
- Do not remove your battery or the SIM card while charging.
- The moving bars of battery icon will stop after charging is complete.

### ! Note

If the battery does not charge.

- Switch the phone off.
- Ensure the battery is correctly fitted.

## How to switch On and Off

Before Use

If you experience a problem with your phone whilst it is in use, or your phone will not switch off, remove and reinsert the battery. Then switch the phone on.

### Switching On

Hold down  key until you see the switch on graphic.

### Switching Off

Press  key for about 3 seconds until you see the switch off graphic.

### Main body of the Phone

1. Voice Recorder Key (Top)
2. Camera
3. External LCD
4. External Speaker
5. Antenna

## Key Description

Before Use

The following shows key components of the phone.

Key Shape	Key Name	Description
	Left	Executes various functions according to Menu explanations.
	Right	Executes various functions according to Search explanations.
	OK	Executes various functions according to Menu selections.
	Side Keys	<ul style="list-style-type: none"><li>• Control key tone volume when folder is open at standby display.</li><li>• Control Talk volume when the phone is in Talk mode.</li><li>• Enable change of time format on the external LCD when folder is closed.</li></ul>
	Talk Key	Used for making and receiving a call.
	End Key	<ul style="list-style-type: none"><li>• Used for switching on and off the phone and ending a call.</li><li>• Used for moving to Standby Display.</li></ul>
	Previous Key	Moves to previous menu.
	Delete Key/ Speaker Phone	<ul style="list-style-type: none"><li>• Converts to Speaker Phone while the phone is in Talk mode.</li><li>• Used for deleting letters numbers.</li></ul>

Key Shape	Key Name	Description
	Internet Hotkey	Enables connection to Internet.
	Message Hotkey	1. Moves to the top of Message Menu when pressed. 2. Moves to the Write Message Menu when hold down.
	Favorites Hotkey	Moves to the top of My Menu.
	Profile Hotkey	Moves to Select Profile Menu.
	Multimedia Hotkey	Connects to Multimedia service.
	Camera Key	Moves to Camera Menu.
	0-9 Alphanumeric Keys	Enters letters and numbers.
	Voice Recording Key	Moves to Voice Recording Menu.

## Key Description

Before Use

### Alphanumeric Keys

Each key can be used for several symbols. There are shown below.

Key	Description
1 Q, W, E	. ! ' 1 ? @ _
2 A B C	A B C 2 Ä Å Æ Ç a b c 2 ä å æ ç
3 D E F	D E F 3 Ë È É Ê d e f ë è é ê
4 G H I	G H I Ï Î Ï 4 g h i ï î ï î
5 J K L	J K L 5 j k l
6 M N O	M N O 6 Ñ Ö Ò Ó Ô Õ m n o ñ ö ò ó ô õ
7 P Q R S	P Q R S 7 p q r s ß
8 T U V	T U V 8 Ü Ù Ú Û t u v ü ù ú û
9 W X Y Z	W X Y Z 9 w x y z
0 [ ]	0 [Space Key]

## Display Information

Before Use

The screen displays several icons. There are described below.

Icon	Name	Icon	Name
	Antenna		On line
	Status of GPRS		Call Divert
	No Service Area		Roaming
	Silent Key		Headset
	Incoming E-mail		Handsfree
	Automatic response		General
	Alarm Setting		Vibrator
	New Incoming Message		Silent
	Power Blinks when battery is short and sends out recharge message where Time/Date is located.		Outdoor
	Talk		User define 1
	Network Connection (Internet)		User define 2
			Alarm
			IrDA
			Battery

### Top Menu Icons

Icon	Description
	Messages
	Call
	Multimedia
	Internet
	Organiser
	Games
	Utilities
	Settings
	Favorites
	SIM services (Dependent on SIM card)

### Using the Menu

1. Open the folder and press  [Menu] key.
2. Press  or  key to select the desired menu, and press  [OK] key to execute. You could also directly execute the menu desired by pressing the corresponding number of the menu.
3. Press  to move to the preceding menu, and press  to return to the Standby Display.

### Making a Call

#### Making a voice call

1. Enter telephone numbers with area code in the Standby mode.
2. After entering the numbers, press  key to make the call.
3. Telephone numbers, name, current time, call duration time are presented on the display.
4. After making the call, press  key or close the folder to end the call.

#### Making an international call

1. Press  key two times in sequence or hold this key down until “+” is displayed.
2. Enter the phone number.
3. Press  [Send] key.

## ! REFERENCE

### • Entering and Saving Numbers

- Pressing  key while entering numbers will delete numbers sequentially from the last, and holding the button down will delete all numbers.
- Pressing  or  key while entering numbers will move to the Standby Display.
- Press  [Save] to save the numbers you entered at the Contacts Registration Display.

### • Use Recent calls to Make a Call

- Press  key from the Standby Display and select a number from the Recent Call List, then press  key to make a call.

### • Speed dial

- Use speed dials saved in speed dial from the Standby Display to make a call or send a message.
- Press  [Search] key from the Standby Display to search for a telephone number, then press  key to make a call.
- Pressing  [Search] key while the phone is in use will enable search for other contacts; however, a call cannot be made to the searched number.

## Receiving a Call

### Receiving a Voice Call

1. In case Folder open is set in answer mode, you can answer a call by opening a folder, or if the folding is open, by pressing any button except  and  when the folder is already opened.
2. If you set Send key in answer mode, you must press  to answer the call.
3. After the call, press  key to end the call, unless the other party disconnects first.

### Checking missed calls

You can check the number list of missed calls.

1. Missed Call and the number of missed calls are shown on the external LCD.
2. Pressing OK brings up the list of miss calls.
3. Select missed calls from the Last Call List and press  key to view the caller, telephone numbers and time call received. (Refer to **Recent calls** [Menu 2-1].)

## How to use Hotkeys

Use speed dials from the Standby mode to move to selected menu quickly. (Refer to Key description.)

### View Menu

Press  [Menu] key from the standby mode to move to Menu, then press  or  key to execute various menus.

### Searching Contacts

Press  [Search] key from the standby mode to search for telephone numbers from Contacts and address for sending messages.

### Accessing Internet

Press  key from the standby mode to move to the Internet Menu, where access to Internet is available. If you long press the key, the phone will access the Home page.

### Message Menu

Press  key from the standby mode will directly move to the Menu. Hold down  key will move directly to the Write Message display, allowing you to write a message immediately. If you hold down the key, the phone moves to SMS write.

### My Menu

Press  key from the standby mode to directly move to My Menu, where you can add, delete, or edit the menu.

### Profile Setting

Press  key from the standby mode to move directly to the **Profile Setting**, where you can change current profile. If you hold down the key, Quiet profile is activated.

### Games

Press  key to directly move to Games menu.

## Multimedia

Press  key from the standby mode to directly move to the VOD Menu, where you can access VOD service and play video.

## Camera

Press  key from the standby mode to directly move to the Camera Mode, where you can take pictures, record videos.

## Voice Recording

Press Voice Recorder Key (See page17) at the upper portion of the phone from the standby mode to immediately record voice.

## How to read received Messages

Icon and letters alerting the message arrival will be shown in the external LCD. Reading incoming messages will depend upon how you preset, and you can change alerting mechanism under Settings [Menu 1-5].

## How to change the Display Theme

You can change Clock mode, Image and animation of Display Theme.

1. To change 'Time' or 'Date format', select 'Phone' from the Settings menu.
2. To change Clock mode (Analogue, Digital, Dual, Normal) or 'Display Theme', select 'Display' from the Settings menu and select 'Screen theme'.
3. If you select 'Image gallery' from Multimedia, you can change Display Theme into Image or Animation.

### ! REFERENCE

- In 'Screen theme' menu, you can also change the themes of Power On/Off.

## How to adjust the Keypad tone

Use side keys from the standby mode to adjust volume.

1. Press  key on the side of the phone from the standby mode to increase the volume.
2. Press  key on the side of the phone from the standby mode to reduce the volume.

## How to record a voice

In a standby mode, you can record a voice by pressing Voice Recorder Key (in the middle of the top).

1. If you press the key, the menu is moved to **Voice recorder**.
2. If you hold down the key, you can voice record directly.

## Recent Calls

You can read the last dialed, missed and received calls.

### Read Call List

1. Press  key in the standby mode.
2. Select the item to read from the Last Call List, then press  [OK].
3. Read the caller, telephone numbers, and the time of call.

## Saving Phone Numbers

You can save unregistered telephone numbers from the Recent call list.

1. Select the unregistered telephone numbers from the Last Call List.
2. Select **Save as new** by pressing  [Option], to register a new name, then select icon to move to the Contact Registration display.
3. Select **Add to existed** by pressing  [Option] and register in Contacts through the Name Search Display to register under an existing name.
4. After registration, return to the Last Call List.

## Deleting Call List

1. Select the item you want to delete from the Call List, then press  [Option] key.
2. Select **Delete** to delete the item you selected.
3. Select **Delete all** to delete the entire items.

**Icons Used in the Recent call List**

	Incoming Call		Outgoing Call
	Missed Call		

### In call menu

1. If you select **New call**, you can make a call.
2. If you select **SMS**, you can send a message during a call.
3. If you select **Search**, you can search phone book entries during a call.
4. If you select **DTMF On/Off**, you can set DTMF.
5. If you select **Mute On/Off**, you can set Mute.
6. If you select **Hold**, you can hold an active call.
7. If you select **Retrieve**, you can retrieve a held call.
8. If you select **End all calls**, you can disconnect all calls.
9. If you select **Call transfer**, you can connect the recipient with another party.
10. If you select **Join calls**, you can make a conference call.
11. If you select **Release**, you can disconnect one of the conference calls.
12. If you select **Participants**, you can check all participants in conference call.
13. If you select **Swap**, you can swap between an active call and a held call.

#### Note

- Some of these services are dependent on your network operator.

### Making and Receiving fax calls

1. Set Baud rate.
2. Connect PC and phone by a data cable.
3. You can activate Fax program in PC.

### Making and Receiving data calls

1. Connect PC and phone by a data cable.
2. You can activate Fax program to transfer data.

You can use your phone to send short messages, multimedia messages, and E-mail. You can also read and store received messages.

### Write [Menu 1-1]

You can write a multimedia message, email, or short message to send or save as draft.

#### SMS

1. Select **SMS** from Write message and press  [OK].
2. Select **SMS** from among the types of messages to send, then press  [OK].
3. Select  [Option] and select **Template**, **Emoticon** to use stored sentences or emoticon while writing a message.
4. You can select a picture, animation or sound by pressing  [Option].
5. After entering all items, press  [OK] to move to **To Field**.
6. You can input phone numbers under **To Field** or recall the phone numbers from **Phonebook** by pressing  [Search].
7. Select  [Done] after inputting the phone number.
8. Select **Send message** and press  [OK].
9. Select **Save to draftbox** and press  [OK] to save in **Draftbox**.
10. When the message is sent, your phone asks whether you want to store the edited message.
11. Press Yes if you want to store it.

## MMS

1. Select **MMS** from the list of messages to send, then press  [OK].
2. Select a format from the list to send, then press  [OK].
3. Input phone numbers you wish to send to and press  [Down] key. You can enter more than 1 recipient, and either the number directly enter or press  [Search].
4. Select **Title** to enter title.
5. Select **Message**, then write a message.
6. To attach an image, select Image and select the image from the list of images to send, then press  [OK] key.
7. To attach a music file, select **Audio**, and select the music file from the list of music files to send, then press  [OK] key.
8. To attach a movie file, select Video and select the video file from the list of video files to send, then press  [OK] key.
9. After entering all items, press  [Done] key to send the multimedia message or save temporarily. To view before sending your message, select **Preview**.

### E-mail

1. Select **E-mail** from the list of **Write**, then press  [OK] key.
2. Enter email address under **To** and press down key.  
You can enter more than 1 recipient and either directly enter or press **Search** for getting e-mail addresses or telephone numbers saved in the Phone book.
3. Select **Title** to enter title.
4. Select **Message** to write a message.
5. Select **Attach** to attach files. Press  [search] and select **Video**, **Image** or **Animation**.
6. After entering all items, press  [OK] key to send the email or save temporarily.

#### Icons for Writing an E-mail Message

	Recipient		Message
	Message Title		File Attachment

#### ! REFERENCE

- Total size of the files attached to an email must be less than 200Kbytes.

## How to Use T9

T9 allows you to input text quickly.

In T9, you only need to press the key with the corresponding letter once. This is based on a built-in dictionary to which you can also add new words.

### • Writing words by using T9.

1. Start writing a word by using the keys **2 ABC** to **9 WXYZ**. Press each key only once for one letter.  
To write for instance **'girl'**, press **4 GHI**, **4 GHI**, **7 PQRS**, **5 JKL**.  
The characters that you enter appear blocked.

The word changes after each keystroke. Therefore you shouldn't pay too much attention to how the word appears on the display until you have pressed all the appropriate keys.

To delete a character to the left, press **CLEAR**. To change the character case, press **# +**. To insert several numbers, press and hold **# +** and key in the numbers.

Alternatively : Press **[Symbol]** and select insert symbol. Select the desired character and press **OK**.

2. When you have finished writing the word, check that the word is correct.  
If the word is correct : Press **0 =** and write the next word.  
If the word is not correct : Search by scrolling with **\* +**.
3. To insert a punctuation mark, press **1 =** repeatedly until the desired mark appears.

### • Adding a new word in the dictionary

When no word is blocked, you can add a new word in the dictionary in the following way:

1. Press  [option] and select **Add dictionary**.
2. Key in the word by using T9 and press .

### • Changing the language or turning T9 off

1. In the **Write** menu, press  [Option].
2. Select **Dictionary** and press .
3. If you want to change the language used in T9, select the desired language and press .  
If you want to turn T9 off, select **Dictionary off** and press .

## Inbox [Menu 1-2]

You will be alerted when you have received a message. When you have received a message, you will be given the option to read, save or delete it.

**Icons Used in the Inbox**

	Unread E-mail		Read Voice Recording
	Read E-mail		VMS Recording
	Unread Multimedia Message		File Attachment
	Read Multimedia Message		Unread SMS
	Unread Voice Recording		Read SMS

## SMS

### • Read message

1. Select the desired message from Inbox, and press  [OK].
2. You can view a long message by scrolling with , . If you press , , you can view the contents. The phone can play sound if you select the Sound icon. Press  [Option] to save the desired message and you can use the contents when making a message later.

### • Read message option menu

1. **Reply** : Replies immediately after viewing the message.
2. **Forward** : Forwards a selected message to another party.  
You can modify the message.
3. **Get number**: If the selected message has the phone numbers (more than 3 figures), you can extract and save it in Phonebook. Also, you can call this number.
4. **Delete** : Deletes the message.

### • Option menu

Press  [Option] from Inbox.

1. **Multiple delete** : Press  key to select one or multiple messages, then press  [Delete] key to delete the selected messages.
2. **Delete All** : The phone deletes all the messages in the inbox.
3. **Delete** : Deletes the message.

## MMS
